

## Course Submission Report

<b>Course Title</b>	:	Behind The Curtain
<b>Course Code</b>	:	CEU-108223
<b>Expiry Date</b>	:	2/28/2021
<b>Use of Course</b>	:	Ongoing
<b>Type of Presentation</b>	:	In person
<b>Subject Code Primary</b>	:	3. Interior Design Education
<b>Subject Code Secondary</b>	:	1. Instruction
<b>Length (Hours(s))</b>	:	1
<b>Course Description</b>	:	This course will provide information about selecting the appropriate window treatment for specific conditions; how to choose the right fabrics and patterns for your chosen window treatment; the types of measurements needed and how they are done; as well as explaining how an installation should be completed the right way. Attendees will leave with the knowledge of various styles of window treatments from shades to drapery, how to correctly specify any of these treatment styles in an educated way, understand what is needed in order to obtain accurate measurements, and knowledgeably follow the process all the way to installation.
<b>Intended Audience</b>	:	Other
<b>Maximum Audience Size</b>	:	30
<b>Degree of Interactivity</b>	:	Low
<b>Classification of Learning levels</b>	:	Basic
<b>Requested Designation</b>	:	General
<b>AIA Approved</b>	:	No
<b>GBCI Approved</b>	:	No

### Facilities and Equipment Required

Classroom seating with tables

LCD projector/screen

### Learning Objectives

Learn how to select the appropriate window treatment for specific window conditions, including treatment types, headers, fullness, draw, and depth. Understand why and how certain fabrics or patterns such as stripes do or do not work in specific window conditions.

Learn why precise measurement is so important and the types of measurements needed for various window and treatment types. See the do's and do not's of installation and probable reasons for installation difficulties.
