

FROM THE PRESIDENT

TEAM, **Together Everyone Achieves More!**

That is what I can say about this stellar New York Board and Chapter. We are already off to a fabulous start for the first quarter of 2015. Our famous Toasty Tuesdays have had some impressive turnouts at some of the hottest hotel spots in the metropolitan area, including the boroughs.

New up for us this year is a Student Mentoring event that took place at

Stone Source's showroom on April 15th, a goal our board felt very passionate about integrating this year. We have some amazing events coming up in the next few months. Our continually growing and successful Owners Roundtable will take place on June 3rd at the Dream Downtown. Stay tuned for details on a Q&A session with a notable Design Icon in the industry! Our HOTTEST event of the year is Product Runway that will take place November 8th and is sure to sell out!

So many exciting projects occurring this year that I couldn't be more ecstatic to be a part of this successful Chapter and have such a support team behind me as I become more acquainted with my role as President. My hat goes off to my incredible Board and committee members! This wouldn't be possible without your passion and dedication to raising money for scholarships!

Thank You!

Alicia Cannon President, NEWH New York Lead Designer and Principal, AJC Design

NEW MEMBER HIGHLIGHT! MASAKO FUKUOKA, INTERIORS DIRECTOR, JEFFREY BEERS

Delia Neese

Jordan Glass

worked on? I have to say The Cove at Atlantis in the Bahamas. It was my first resort project, and it had an amazing team of client, architect and consultants

🚫 1) What is one of your favorite projects you have

who shared a vision with a high standard and quality. 2) What is an inspiring space to you, here in NYC?

actually made it, buried in the design work. I made a promise to myself

Noguchi Museum, Queens

3) If you could be transported to any hotel in the world where would you

Aman'oi in Vietnam for great R & R and food, and Benesse House in Naoshima, Japan for art and nature.

4) We are so happy you joined NEWH! What compelled you to join? I meant to join quite a long ago as I admire the organization, but never

this year to push myself professionally to connect more and contribute to the industry.

Welcome Masako!
